Preface

xiii

1 The Theoretical Framework	1
1.0.1 EU's IAS 39 versus IASB's IAS 39	1
1.0.2 US Gaap FAS 133	1
1.1 Accounting Categories for Financial Assets and Liabilities	1
1.1.1 Financial Assets Categories	2
1.1.2 Financial Assets Recognition	3
1.1.3 Financial Liabilities	4
1.1.4 The Fair Value Option	4
1.2 The Amortised Cost Calculation: The Effective Interest Rate	5
1.2.1 Example of Effective Interest Rate Calculation	6
1.3 Hedge Accounting – Recognising Derivative Instruments	6
1.3.1 Derivative Definition	6
1.3.2 Hedge Accounting	7
1.3.3 Accounting for Derivatives	8
1.3.4 Undesignated or Speculative	8
1.3.5 Fair-value Hedge	8
1.3.6 Cash Flow Hedge	9
1.3.7 Net Investment Hedge	11
1.3.8 Embedded Derivatives	11
1.4 Hedging Relationship Termination Events	13
1.5 Hedged Item Candidates	14
1.6 Hedging Instrument Candidates	16
1.7 Hedging Relationship Documentation	17
1.8 Effectiveness Tests	18
1.8.1 Prospective test	18
1.8.2 Restrospective Test	19
1.8.3 Restrospective Test Failure	20
1.9 Methods for Testing Effectiveness	21
1.9.1 The Critical Terms Method	21
1.9.2 The Ratio Analysis or Dollar-Offset Method	21
1.9.3 The Regression Analysis Method	22

1.9.4	The Scenario Analysis Method	24
1.9.5	The Volatility Risk Reduction Method (VRR)	25
1.9.6	The Short-Cut Method for Interest Rate Swaps	26
1.9.7	Concluding Remarks	26
1.10	The Hypothetical Derivative Simplification	27
1.11	Effects of Derivatives in the P&L Statement	27
2	An Introduction to the Derivative Instruments	29
2.1	FX Forwards	29
2.1.1	Product Description	29
2.1.2	IAS 39 Accounting Implications	30
2.2	Interest Rate Swaps	32
2.2.1	Product Description	32
2.2.2	IAS 39 Accounting Implications	33
2.3	Cross-Currency Swaps	33
2.3.1	Product Description	33
2.3.2	IAS 39 Accounting Implications	36
2.4	Standard (Vanilla) Options	36
2.4.1	Product Description	36
2.4.2	Standard Foreign Exchange Options	37
2.4.3	Interest Rate Options – Caps, Floors and Collars	40
2.4.4	IAS 39 Accounting Implications of Options – Intrinsic versus Time Value	43
2.4.5	IAS 39 Accounting Implications of Options – Written Options	45
2.5	Exotic Options	46
2.6	Barrier Options	46
2.6.1	Knock-Out Barrier Options – Product Description	47
2.6.2	Knock-in Barrier Options – Product Description	48
2.7	Range Accruals	48
3	Hedging Foreign Exchange Risk	51
3.1	Types of Foreign Exchange Exposures	51
3.2	Introductory Definitions	51
3.2.1	Functional Currency	51
3.2.2	Relevant Dates	52
3.3	Summary of IAS 21 Translation Rates	52
3.3.1	Monetary versus Non-Monetary Items	52
3.3.2	Translation Rates	53
3.4	Foreign Currency Transactions	53
3.4.1	Summary of Most Popular Hedging Derivatives – Foreign Exchange Risk	54
Case 3.1	Hedging a Highly Expected Foreign Sale with a Forward	55
Case 3.2	Hedging a Highly Expected Foreign Sale with a Tunnel	68
Case 3.3	Hedging a Highly Expected Foreign Sale with a Participating Forward	76
Case 3.4	Hedging a Highly Expected Foreign Sale with a Knock-in Forward	87
Case 3.5	Hedging a Highly Expected Foreign Sale with a KIKO Forward	99

Case 3.6	Hedging a Highly Expected Foreign Sale with a Range Accrual Forward	111
Case 3.7	The Treasury Centre Challenge	122
Case 3.8	Hedging Forecast Intragroup Transactions	127
4	Hedging Foreign Subsidiaries	129
4.1	Stand-alone versus Consolidated Financial Statements	129
4.1.1	Subsidiary Financial Statements	129
4.1.2	Parent-Only Financial Statements	130
4.1.3	Consolidated Financial Statements	130
4.2	The Translation Process	131
4.2.1	Basic Procedures before Translation	131
4.2.2	Specific Translation Procedures	132
4.3	The Translation Differences Account	132
4.4	Special Items that are Part of the Net Investment	133
4.4.1	Goodwill and Fair Value Adjustments	133
4.4.2	Special Monetary Items	133
4.5	Effect of Minority Interests on Translation Differences	134
4.6	Hedging Net Investments in Foreign Operations	134
4.6.1	Net Investment Hedge Issuing Foreign Currency Debt	134
4.6.2	Net Investment Hedge Using Derivatives	135
Case 4.1	Hedging Intragroup Foreign Dividends	135
Case 4.2	Hedging Foreign Subsidiary Earnings	145
Case 4.3	Accounting for Net Investments in Foreign Operations	152
Case 4.4	Net Investment Hedge using a Forward	154
Case 4.5	Net Investment Hedge using a Cross-Currency Swap	162
Case 4.6	Net Investment Hedge using Foreign Currency Debt	169
Case 4.7	Integral Hedging of an Investment in a Foreign Operation	174
5	Hedging Interest Rate Risk	183
5.1	Common Interest Rate Hedging Strategies	183
5.2	Separation of Embedded Derivatives in Structured Bonds	184
5.3	Discounting Debt	186
5.3.1	Hedging a Debt Instrument in Its Entirety	186
5.3.2	Hedging Only the Euribor Part of the Debt Instrument	188
5.4	Discounting Derivatives	189
5.5	Interest Accruals	189
5.6	The Fixed-Back-to-Fixed Hedging Problem	190
5.7	Interest Rate Risk Macrohedging	190
5.7.1	Demand Deposits	191
5.7.2	Asset and Liability Management	191
5.8	Inflation-linked Bonds and Swaps	191
5.9	Repos	192
5.10	Step-Up/Step-Down Provisions	192
5.11	Summary of Most Popular Hedging Derivatives – Interest Rate Risk	193
5.11.1	Hedging Relationship Documentation	267
5.11.2	Journal Entries	270

Case 5.1	Hedging a Floating-Rate Liability Using an Interest Rate Swap	193
Case 5.2	Hedging a Floating-Rate Liability Using a Zero-Cost Collar	200
Case 5.3	Calculations Implications of Interest Accruals	210
Case 5.4	Hedging a Fixed-rate Liability with an Interest Rate Swap	215
Case 5.5	Hedging a Future Fixed-rate Bond Issuance with a Swap	229
Case 5.6	Hedging a Future Floating-rate Bond Issuance with a Swap	239
Case 5.7	Hedging a Fixed-Rate Liability with a Swap In-Arrears	250
Case 5.8	Hedging a Floating-Rate Liability with a European KIKO Collar	263
6	Hedging Foreign Currency Liabilities	277
6.1	Hedging using Cross-Currency Swaps	277
Case 6.1	Hedging a Floating-rate Foreign Currency Liability Using a Receive-Floating Pay-Floating Cross-Currency Swap	277
Case 6.2	Hedging a Fixed-rate Foreign Currency Liability Using a Receive-Fixed Pay-Fixed Cross-Currency Swap	299
Case 6.3	Hedging a Fixed-rate Foreign Currency Liability Using a Receive-Fixed Pay-Floating Cross-Currency Swap	313
Case 6.4	Hedging a Floating-rate Foreign Currency Liability Using a Receive-Floating Pay-Fixed Cross-Currency Swap	331
7	Hedging Equity Risk	347
7.1	Recognition of Equity Investments in Other Companies	347
7.1.1	Impairment of Equity Investments	348
7.2	Debt versus Equity Classification of Own Instruments	348
7.2.1	Recognition As a Liability	349
7.2.2	Recognition As Equity	349
7.3	Hybrid Securities – Preference Shares	350
7.3.1	Contractual Discretion	350
7.3.2	Economic Compulsion	350
7.3.3	Degree of Subordination	351
7.3.4	Legal Form	351
7.4	Hybrid Securities – Convertible Bonds	351
7.4.1	Convertible Bonds Denominated in the Entity’s Functional Currency	351
7.4.2	Convertible Bonds Denominated in Foreign Currency	352
7.5	Derivatives on Own Equity Instruments	352
Case 7.1	Accounting for a Stock Lending Transaction	353
Case 7.2	Measurement of a Mandatory Convertible Bond	358
Case 7.3	Measurement of a Convertible Bond	361
Case 7.4	Hedging Step-up Perpetual Callable Preference Shares	363
Case 7.5	Base Instruments Linked to Debt Instruments	369
Case 7.6	Hedging an Available-for-sale Investment with a Put Option	370
Case 7.7	Parking Shares Through a Total Return Swap	375
Case 7.8	Hedging an Equity-Settled Options Plan with an Equity Swap	380
8	Hedging Commodity Risk	391
8.1	Own-use Versus IAS 39 Commodity Contracts	391
8.2	Hedging Commodity Risk	392

Case 8.1	Hedging a Commodity Firm Commitment with a Forward	392
Case 8.2	Hedging a Commodity Inventory with Futures	397
Case 8.3	Hedging a Highly Expected Purchase with Futures	403
9	Hedge Accounting: A Double Edged Sword	411
9.1	Positive Influence on the Profit and Loss Statement	411
9.2	Substantial Resources Requirements	412
9.3	Limited Access to Hedging Alternatives	413
9.4	Risk of Reassessment of Highly Probable Transactions	414
9.5	Risk of Restatements	414
9.6	Low Compatibility with Portfolio Hedging	415
9.7	Limited Solutions to Basis Risk	416
9.8	Final Remarks	417
	References	419
	Index	421
